You are required to verify your identity.

SECURITY NOTIFICATION

Why is this happening?

This enhanced security verifies your identity by requiring multiple credentials.

It creates layers of security to increase the confidence that you are who you say you are.

The new system requires not only a username and password, but a code is sent via voice message, email or text.

What you need to do.

- ✓ Make sure the credit union has updated email address
- ✓ Check the Credit Union Website for updates and a "Cheat sheet"
- ✓ Update your username if it does not contain 5 characters and a number .
- ✓ FOLLOW THE INSTRUCTIONS ON THE CHEAT SHEET

When is this happening?

This will be taking place July 14th, 2021.

We understand that this will be an inconvenience. This update has been in the process for a couple of years and the credit union delayed the implementation due to the challenges caused by COVID. However, due to increased cyber security issues nationwide we have decided implement the advanced security measures. Please feel free to contact us with any issues but we ask that you be patient and follow the instructions on the cheat sheet step by step; this will be available on the website to help make everything easier for you.
